

■ Immunity Booster Drinks & Soups Guide

15 Kid-Friendly Recipes with Hidden Immunity Boosters

By Happy Tiffin System | For Indian Moms

***How This Guide Works:** Every recipe here tastes like a regular milkshake, juice, or soup to your child. The immunity-boosting ingredients are completely hidden in taste and color. Each recipe takes under 10 minutes to make.*

SECTION 1: IMMUNITY BOOSTER DRINKS (10 Recipes)

■ Drink #1 — "Chocolate Strength Shake"

Tastes like: Chocolate milkshake

Hidden boosters: Turmeric + Ashwagandha

Ingredients:

1 glass cold milk

1 tbsp cocoa powder (unsweetened)

1 tsp honey or jaggery

¼ tsp turmeric (haldi) — completely masked by cocoa

■ tsp ashwagandha powder — completely masked by chocolate taste

2 dates (blended smooth)

Method: Blend everything for 45 seconds. Serve chilled. The cocoa fully hides turmeric and ashwagandha.

Immunity benefit: Turmeric = anti-inflammatory. Ashwagandha = stress immunity + better sleep quality for kids.

■ Drink #2 — "Yellow Banana Smoothie"

Tastes like: Banana milkshake

Hidden boosters: Ginger + Turmeric

Ingredients:

1 ripe banana

1 glass milk

½ tsp grated ginger (adrak) — small enough to be undetectable

¼ tsp turmeric

1 tsp honey

Method: Blend until completely smooth. The banana sweetness hides ginger heat completely.

Immunity benefit: Ginger = powerful anti-viral + anti-bacterial. Works especially well during cold & flu season.

■ Drink #3 — "Pink Power Shake"

Tastes like: Strawberry shake

Hidden boosters: Beetroot + Vitamin C (amla)

Ingredients:

½ cup strawberries (fresh or frozen)

¼ small beetroot (boiled, cooled)

1 glass milk or yogurt

1 tsp amla powder — completely hidden by fruit tartness

1 tsp honey

Method: Blend everything smooth. The strawberry + beetroot creates a fun pink color kids love.

Immunity benefit: Beetroot = iron + blood building. Amla = highest natural Vitamin C source, builds immunity fast.

■ Drink #4 — "Mango Magic Lassi"

Tastes like: Sweet mango lassi

Hidden boosters: Tulsi + Saunf (fennel)

Ingredients:

½ cup mango pulp (aamras)

½ cup dahi (yogurt)

½ glass water or milk

3–4 fresh tulsi leaves (blended, not detectable)

½ tsp saunf powder — hidden completely by mango

Method: Blend smooth. Serve chilled. Tulsi gets completely masked by mango flavor.

Immunity benefit: Tulsi = natural antibiotic + fever protection. Saunf = digestion + reduces stomach infections.

■ Drink #5 — "Orange Sunshine Juice"

Tastes like: Sweet orange juice

Hidden boosters: Carrot + Amla + Ginger

Ingredients:

2 oranges (juiced)

1 small carrot (juiced or blended)

½ tsp amla powder

Tiny pinch of grated ginger

Pinch of black salt

Method: Juice or blend everything. Strain if preferred. Orange completely dominates the taste.

Immunity benefit: Carrot = Vitamin A for eye + lung immunity. Orange + Amla = double Vitamin C punch.

■ Drink #6 — "Chocolate Haldi Milk" (Upgraded Golden Milk)

Tastes like: Hot chocolate

Hidden boosters: Turmeric + Black pepper + Cinnamon

Ingredients:

1 glass warm milk

1 tbsp cocoa powder

½ tsp turmeric

Pinch of black pepper (kali mirch) — activates turmeric absorption by 2000%

¼ tsp cinnamon (dalchini)

Jaggery to sweeten

Method: Warm milk, whisk in all ingredients. The cocoa completely hides turmeric color and taste.

Immunity benefit: This is scientifically one of the strongest immunity combinations. Black pepper makes turmeric 20x more effective.

■ Drink #7 — "Green Monster Shake" (Kids love the name!)

Tastes like: Sweet vanilla with a slightly green color — kids find it fun

Hidden boosters: Spinach + Moringa

Ingredients:

1 ripe banana

1 glass milk

1 small handful spinach (palak) — 3–4 leaves

½ tsp moringa powder (drumstick powder)

1 tsp honey or vanilla essence

Method: Blend until very smooth. The banana sweetness and honey completely mask spinach and moringa.

Immunity benefit: Moringa = one of the world's most nutrient-dense plants. Spinach = iron + folate.

■ Drink #8 — "Purple Grape Boost"

Tastes like: Grape juice

Hidden boosters: Jamun (Indian blackberry) + Amla

Ingredients:

½ cup black grapes

2 tbsp jamun pulp (fresh or frozen)

1 tsp amla powder

1 tsp honey

½ cup water

Method: Blend and strain. The dark color of grapes hides everything perfectly.

Immunity benefit: Jamun = powerful antioxidant + blood sugar regulation. Excellent for overall immunity.

■ Drink #9 — "Badam Power Milk"

Tastes like: Sweet almond milk

Hidden boosters: Saffron + Ashwagandha + Cardamom

Ingredients:

8–10 almonds (soaked overnight, peeled)

1 glass warm milk

2–3 strands saffron (kesar) — dissolved in 1 tsp warm milk

■ tsp ashwagandha powder

1 pinch cardamom (elaichi)

Jaggery to taste

Method: Blend almonds with a little milk to paste. Add remaining milk and spices. Warm gently. Saffron gives a beautiful golden color kids find cool.

Immunity benefit: Almonds = brain development + immunity. Ashwagandha = cortisol regulation (reduces sick-day stress). Saffron = mood + respiratory health.

■ Drink #10 — "Nimbu-Adrak Cooler" (Summer Special)

Tastes like: Sweet lemonade

Hidden boosters: Ginger + Mint + Black salt

Ingredients:

Juice of 2 lemons

1 tsp grated ginger (juiced through strainer — no fiber, no detection)

8–10 mint leaves (pudina)

1 tsp honey or jaggery

1 glass water

Pinch of black salt (kala namak)

Method: Mix everything. Serve with ice. Ginger juice through strainer means zero texture — only the lemon taste is felt.

Immunity benefit: Lemon = Vitamin C. Ginger = anti-viral. Mint = respiratory health. Perfect for post-school recovery.

SECTION 2: IMMUNITY BOOSTER SOUPS (5 Recipes)

■ Soup #1 — "Magic Tomato Soup"

Tastes like: Regular tomato soup (like restaurant style)

Hidden boosters: Garlic + Ginger + Turmeric

Ingredients:

4 ripe tomatoes

1 medium carrot

2 garlic cloves (lahsun) — cooked removes strong taste

½ inch ginger

¼ tsp turmeric

Salt, black pepper, butter to taste

Fresh cream for serving (optional)

Method: Pressure cook everything for 2 whistles. Blend smooth. Strain. Season and serve with butter on top. Garlic and ginger fully mellow after cooking — kids cannot taste them.

Immunity benefit: Garlic = natural antibiotic (allicin). Carrot = lung immunity. Ginger = anti-viral.

■ Soup #2 — "Yellow Dal Soup"

Tastes like: Mild, comforting dal (familiar Indian taste)

Hidden boosters: Turmeric + Garlic + Cumin

Ingredients:

½ cup moong dal (washed)

1 small carrot (grated)

1 small lauki piece

½ tsp turmeric

1 garlic clove (optional — fully cooked so taste is mild)

1 tsp ghee

Cumin seeds (jeera)

Salt to taste

Method: Cook dal and vegetables in pressure cooker. Blend partially for a smooth texture. Temper with ghee and cumin. Kids find this comforting and familiar.

Immunity benefit: Moong dal = protein + zinc (key immunity mineral). Ghee = fat-soluble vitamin absorption. Turmeric = anti-inflammatory.

■ Soup #3 — "Orange Carrot Soup"

Tastes like: Sweet, mildly spiced soup

Hidden boosters: Ginger + Carrot + Sweet potato (shakarkand)

Ingredients:

3 large carrots

1 small sweet potato (shakarkand)

½ inch ginger

1 garlic clove

½ tsp cumin powder

Butter + cream for serving

Salt to taste

Method: Boil vegetables until very soft. Blend until silky smooth. Add butter before serving. The natural sweetness of carrot + sweet potato completely masks ginger.

Immunity benefit: Sweet potato = Vitamin A (the immunity vitamin). Carrot = beta-carotene = respiratory health protection.

■ Soup #4 — "Green Pea & Mint Soup"

Tastes like: Sweet, bright green soup — kids find the color fun

Hidden boosters: Spinach + Moringa + Garlic

Ingredients:

1 cup green peas (matar) — fresh or frozen

1 small handful spinach

½ tsp moringa powder (added AFTER blending — no extra cooking)

1 garlic clove

Fresh mint leaves

Butter + salt

A squeeze of lemon

Method: Sauté garlic in butter. Add peas, spinach, mint. Cook 5 minutes. Blend smooth. Stir in moringa powder off heat (preserves nutrients). Serve immediately.

Immunity benefit: Peas = Vitamin K + protein. Moringa = 7x more Vitamin C than oranges. Spinach = iron.

■ Soup #5 — "Healing Chicken Clear Soup" (Non-veg families)

Tastes like: Comforting, mild chicken broth

Hidden boosters: Garlic + Ginger + Turmeric + Black pepper

Ingredients:

1 chicken piece (bone-in for richer broth)

3 garlic cloves

1 inch ginger piece

¼ tsp turmeric

Pinch of black pepper

1 small carrot + 1 celery stick (optional)

Salt to taste

Fresh coriander for serving

Method: Pressure cook chicken with all ingredients and 3 cups water for 4 whistles. Strain broth. Shred chicken and add back. Serve warm. All the immunity ingredients dissolve into the broth — child gets all benefits, zero detection.

Immunity benefit: Bone broth = collagen + minerals. Garlic + Ginger + Turmeric + Black pepper together = the most powerful natural anti-viral combination in Ayurveda. Give this when child is showing first signs of cold.

QUICK REFERENCE: WHEN TO USE WHICH

Situation	Best Recipe
Daily routine (morning)	Drink #1, #2, #9
Post-school recovery	Drink #10, Soup #1
Cold/flu season prevention	Drink #6, Soup #5
Low energy / sluggish child	Drink #3, #7
Stomach issues / digestion	Drink #4, Soup #2
Summer heat	Drink #5, #8, #10
Child showing cold symptoms	Soup #5, Drink #6
Iron deficiency / pale	Drink #3, Drink #7, Soup #4

IMPORTANT TIPS

■ DO:

Serve drinks at the right temperature (warm ones warm, cold ones with ice)

Introduce new recipes one at a time

Let your child pick fun names for each drink (ownership = acceptance)

Use a fun straw or colorful glass to make it exciting

■ DON'T:

Add too much of any spice — less is more for hiding

Tell your child what's inside before they finish it

Make the same drink every day (rotate for best immunity coverage)

Heat moringa powder — always add after cooking to preserve nutrients
