

Kids' Gamified Habit Board & Rewards Tracker

Fun, Interactive Printable Trackers for Healthy Eating Habits

Introduction: Gamifying Nutrition

Children respond far better to positive reinforcement and play than to rules and instructions. This Habit Board transforms daily meals into a game where they can color stars, track progress, and earn healthy rewards.

How to Use These Boards:

1. **Print Them Out:** Print these pages in color and stick them on your refrigerator or bedroom wall at eye-level for your child.
 2. **Use Stickers or Crayons:** Let your child color a star or place a sticker *themselves* immediately after they complete a habit.
 3. **Set Clear, Small Rewards:** Agree on a weekly non-food reward (e.g., a trip to the park, choosing the family movie, or playing a favorite board game). Do not use chocolate/sweets as rewards.
